## HOSPITAL POSTINGS REPORT

The main objectives of the field trip, was to learning about specific departments, observing medical procedures and understanding hospital administration.

The different departments and wards were visited. In the Emergency Department: Overview of triage processes, patient intake procedures, and types of cases handled. In the Surgical Department: Observations on the preparation and execution of surgical procedures, roles of surgical staff. In the Nursing Department: Insights into daily routines, patient care techniques, and interaction with patients. Interactions with hospital staff, including doctors, nurses, and administrative personnel were done. Different Medical Procedures techniques are observed. The students were given an insight into hospital management, such as patient flow, record-keeping, and coordination between different departments.

We thank the hospital staff who facilitated the visit and provided us with the valuable information.
