NPC/VAC 1 /2022-2023

Date: 20-01-2023

CIRCULAR

This is to inform all students that our college is conducting a value added program on “GOOD LABORATORY PRACTICES AND EFFECTIVE EXPERIMENTATION” from 27-01-2023 to 01-02-2023. All interested candidates submit their names to the coordinator on or before 25-01-2023. So, all students are here to definitely attend classes.

Venue : Seminar hall, Narayana Pharmacy College

Coordinator : Mrs. Salma Shaik,
Associate Professor
Department of Pharmaceutical Chemistry

Value Added Course on

“ GOOD LABORATORY PRACTICES AND EFFECTIVE EXPERIMENTATION ”

Date:

27-1-2023 to 1-2-2023

Scope:

1. Introduction to Good Laboratory Practices (GLP):

Overview of GLP regulations, standards, and guidelines applicable in laboratory settings.

Importance of GLP in ensuring quality, reliability, and integrity of experimental data.

2. Experimental Design and Methodology:

Principles of experimental design, including hypothesis formulation, variables identification, and control measures.

Techniques for planning, conducting, and documenting experiments according to GLP standards.

Objectives:

1. Understand Good Laboratory Practices:

Define GLP principles, regulations, and their significance in scientific research and experimentation.

Recognize the roles and responsibilities of laboratory personnel in maintaining GLP standards.

2. Enhance Experimental Design Skills:

Develop skills in formulating clear hypotheses, selecting appropriate experimental methods.

Implement strategies for minimizing bias, variability, and confounding factors in experimental designs.

Highlights:

The knowledge, skills, and practices necessary to uphold GLP standards, conduct reliable experiments, ensure data integrity, and maintain a safe and compliant laboratory environment.

LAST DATE FOR REGISTRATION:

20-01-2023

PRINCIPAL
NARAYANA PHARMACY COLLEGE
NELLORE - 524 002.

Teaching Methodology:

- **Lectures and Workshops:** Deliver lectures on GLP principles, experimental design strategies, QA/QC methodologies, and safety protocols.
- **Hands-on Exercises:** Conduct practical sessions to simulate experimental scenarios, practice data recording, and perform QA/QC procedures.

EVENT OVERVIEW:

Resource Person **Dr. K. SHRAVANAN** explained the students about Definition and scope of GLP and its role in upholding for accuracy and reliability in laboratory work. Fundamental Ideas of GLP, Stress the need of having appropriately qualified and trained staff members, as well as clearly defined roles and duties. He discussed about the Laboratory documentation should follow the principles that are explained in this guideline. An SOP that describes the sampling steps should be in place. Ongoing stability program. Technical transfer of testing methods.

Mr. A. Avinash Describe how every laboratory activity requires precise and thorough record-keeping. Explain procedures for keeping an eye on and verifying findings to guarantee the accuracy of the data.

The sessions were successfully concluded with a valedictory ceremony followed by certificate distribution to all the participants.

“ TRAINING ON MEDICAL CODING ”

Date:

.....
27-6-22 to 30-06-2022

Scope:

1. Introduction to Medical Coding:

Overview of medical coding principles, practices, and importance in healthcare reimbursement and data management.

Explanation of code sets and classification systems used in medical coding (e.g., ICD-10-CM, CPT, HCPCS).

2. Coding Guidelines and Compliance:

Understanding coding guidelines, conventions, and regulatory requirements (e.g., HIPAA) governing medical coding practices.

Importance of accuracy, specificity, and documentation in coding for healthcare services.

LAST DATE FOR REGISTRATION: 21-06-2023

Resource Person:

Dr.P. Yanadaiah Associate Professor

V. Sujitha Assistant Professor

PRINCIPAL

NARAYANA PHARMACY COLLEGE

NELLORE, 524 002

Objectives:

1. Understand Good Laboratory Practices:

EVENT OVERVIEW:

Resource Person **Dr. P. YANADAIAH & Ms. V. SUJITHA** explained the students about Medical coding are the transformation of healthcare diagnosis, procedures, medical services, and equipment into universal medical alphanumeric codes. The diagnoses and procedure codes are taken from medical record documentation, such as transcription of physician's notes, laboratory and radiologic results, etc.

Medical coding professionals help ensure the codes are applied correctly during the medical billing process, which includes abstracting the information from documentation, assigning the appropriate codes, and creating a claim to be paid by insurance carriers. The sessions were successfully concluded with a valedictory ceremony followed by certificate distribution to all the participants.

Value Added Course on

ROLE OF MEDICINAL PLANTS IN SOCIETY

FROM: 1-4-2023 TO 6-4-2023

Course Outcomes:

- Demonstrate Knowledge of Medicinal Plants: Describe the diversity, botanical characteristics, and therapeutic properties of medicinal plants.
- Appreciate Cultural Significance: Understand the cultural and historical contexts of medicinal plant use in different societies and indigenous communities.

Scope:

1. Historical and Cultural Significance:
Explore the historical use of medicinal plants in various cultures and societies.
Discuss traditional healing practices and indigenous knowledge related to medicinal plants.
2. Botanical Diversity and Identification:
Study the diversity of medicinal plants, their botanical classification, and geographical distribution.
Identify common medicinal plants used globally and regionally.
3. Bioactive Compounds and Pharmacological Properties:
Examine bioactive compounds present in medicinal plants and their therapeutic properties.
Discuss pharmacological studies and research supporting the efficacy of medicinal plants in healthcare.

Teaching Methodology:

- Lectures and Seminars: Deliver lectures on historical, cultural, botanical, and pharmacological aspects of medicinal plants.
- Case Studies and Discussions: Analyze case studies and engage in discussions on traditional uses, scientific research, and conservation challenges related to medicinal plants.
- Field Visits and Demonstrations: Conduct field visits to botanical gardens, herbal farms, or natural habitats to observe medicinal plants in their native environments.
- Hands-on Activities: Facilitate hands-on activities such as plant identification, preparation of herbal remedies, and extraction of bioactive compounds.

EVENT OVERVIEW:

Resource Person Dr. RAJA SUBRAMANYUM & Mrs. Y. RATNA KUMARI explained the students about Medicinal plants continue to play a vital role in society, bridging ancient traditions with modern scientific advancements. Their contributions to healthcare, cultural practices and sustainable living underscore their significance. As research progresses and practices evolve, medicinal plants are likely to remain a fundamental component of health and wellness strategies globally. Ensuring ethical practices and high standards will be crucial in maximizing their benefits while addressing potential challenges.

Research and Innovation: Continual investigations into medicinal plants may yield novel therapeutic substances and remedies. Our knowledge of the molecular mechanisms underlying the actions of plant chemicals is being expanded by developments in genomics and Biotechnology.

Integration with Modern Medicine: By fusing ancient wisdom with cutting-edge scientific techniques, medicinal plants have the potential to be more methodically incorporated into current healthcare, leading to the development of comprehensive treatment plans. Education and Awareness: Raising professional and public knowledge of the advantages and restrictions of medicinal plants can help to promote responsible usage and a better-informed attitude to their use.

The sessions were concluded by Summarize the main findings and their implications, Restate the significance of the study in the broader context, Avoid introducing new information in the conclusion

EVENT OVERVIEW:

Resource Person Dr. M. SREENIVASULU REDDY & Mrs. G. UDAYA explained the students about this course are created with an objective to introduce a very important area that is intellectual property. After doing this course, learner will

OBJECTIVES

1. Know concept of intellectual property (IP)
2. Appreciate the nature, scope and different types of IPs, its different utilities and approaches followed to get various benefits
3. Understand the rationale and importance of IP in knowledge economy
4. Be introduced to practical aspects of intellectual property

TOPICS COVERED

There are 7 types of intellectual property rights, namely – copyright, trade marks, patents, geographical indications, plant varieties and industrial designs

PROGRAM OUTCOME

Learners will acquire an understanding of copyright and related rights, including its concept, coverage, duration, limitations, the types of works protected, rights granted, and exceptions for certain uses.

The sessions were successfully concluded with a valedictory ceremony followed by certificate distribution to all the participants.

LITERATURE REVIEW

Scope of Literature Review:

1. Research Focus: The literature review defines the specific area of research or topic of interest that will be examined.
2. Inclusion Criteria: Specifies the types of sources to be included (e.g., academic journals, books, conference papers) and criteria for their selection (e.g., relevance, recency).
3. Temporal Scope: Determines the timeframe covered by the literature review, whether it's recent developments or a historical perspective.

Objectives of Literature Review:

1. Identify Knowledge Gaps: Determine what is already known and understood about the topic, highlighting areas where further research is needed.
2. Evaluate Existing Literature: Critically analyze and synthesize existing research findings, theories, and methodologies related to the topic.
3. Establish Theoretical Framework: Provide a theoretical foundation or conceptual framework for understanding the topic.

DATE:

01-02-2023 TO 6-2-2023

VENUE

SEMINAR HALL - NPC

Highlights:

To establish the context for a research study, evaluate existing knowledge, and identify opportunities for further inquiry, thereby contributing to the advancement of knowledge within a specific field or discipline.

LAST DATE FOR REGISTRATION: **31-01-2023**

EVENT OVERVIEW:

Resource Person **Dr. G. RAJESWARI & Mrs. B. PURNA SAI** explained the students An extensive summary of research on a particular subject is provided in a literature review report. It provides a comprehensive picture of the present state of knowledge, identifies gaps, and suggests opportunities for future research by summarizing, analyzing and synthesizing existing findings. This is a methodical strategy to writing a successful report on a literature review. Explanation of the subject or research issue in brief. Describe the subject and its importance Define the review's goals and parameters in order to understand its purpose. Indicate the queries for the literature review.

Outcomes for literature review:

- Literature reviews also assist you in comprehending the theory or theories guiding the discipline, which enables you to contextualize your research issue.
- You can observe and even judge effective and ineffective techniques of assessment and research in your field by reviewing literature reviews.
- By preventing you from repeating information found in other works by authors in your profession, literature reviews help you develop a distinctive style for your writing.
- Reading reviews of literature helps you become acquainted with the body of knowledge in your field, which allows you to assess the importance of your further research.

OBJECTIVES:

Resource Person **Dr. SAI SAMPATH KUMAR NOSSAM & Mr. A. AVINASH** explained the students about course Promoting health and well-being through balanced nutrition and informed food choices. Providing knowledge about nutrition principles, dietary guidelines, and the importance of a diverse diet. Encouraging positive changes in eating habits and food choices for improved health outcomes. Appreciating the cultural diversity of food practices and their significance in different societies. Raising awareness about sustainable food production and consumption practices to minimize environmental impact.

OUTCOMES:

1. Enhanced understanding of nutrition leads to better dietary practices, contributing to overall health and disease prevention.
2. Adoption of healthier eating habits and behaviors, such as increased consumption of fruits and vegetables, and reduced intake of processed foods.
3. Increased knowledge about food and nutrition empowers individuals to make informed choices for themselves and their families.
4. Greater awareness of sustainable food choices promotes environmentally friendly practices and supports local food systems.
5. Appreciation and respect for diverse food cultures foster cultural understanding and unity within communities.

HIGHLIGHTS:

It encompasses the intersection of nutrition, health, culture, and sustainability, aiming to empower individuals to make informed and health-promoting food choices while considering broader societal and environmental impacts.

FUNDAMENTALS OF RESEARCH

RESOURCE PERSON:

Dr. S. SUJATHA Associate Professor

Dr. K. HARINADHA BABA Professor

DATE: 28-06-2022 TO 3-07-2022

Venue: Seminar hall

Scope of Fundamentals of Research:

1. Research Methods: Covers various research methodologies such as qualitative, quantitative, mixed methods, and action research.
2. Research Design: Includes the structure and planning of research studies, including experimental, correlational, observational, and case study designs.
3. Data Collection: Techniques and tools for gathering primary and secondary data, including surveys, interviews, observations, and archival research.

Objectives of Fundamentals of Research:

1. Knowledge Generation: To contribute new knowledge and insights to a specific field or discipline.
2. Problem Solving: To address research questions or hypotheses through systematic investigation and analysis.
3. Theory Development: To develop and refine theoretical frameworks that explain phenomena and guide future research.
4. Application of Findings: To apply research findings in practical settings for decision-making, policy formulation, or practice improvement.

Highlights:

Mastering the fundamentals of research involves understanding various methodologies, designing rigorous studies, collecting and analyzing data ethically, and using research outcomes to advance knowledge and practice within a specific field or discipline. It aims to contribute to scholarly discourse, inform decision-making, and drive innovation and improvement in various sectors.

EVENT OVERVIEW:

Resource Person **Dr. S. SUJATA MAM** explained the students about course Research Findings Generation of new knowledge, theories, or models that contribute to the understanding of a particular phenomenon. Publication Dissemination of research findings through academic journals, conferences, and other scholarly outlets. Policy Impact Influence on policy-making and practices based on empirical evidence and research recommendations.

Dr .K. HARINADA BABA discussed about Practical Application of research findings in real-world settings to address practical challenges or improve practices. Research Ethics Adherence to ethical standards and guidelines in conducting research, ensuring integrity and respect for research participants.

The sessions were concluded by Summarize the main findings and their implications, Restate the significance of the study in the broader context, Avoid introducing new information in the conclusion.
