Date: 01-11-2023

CIRCULAR

This is to inform all students that our college will be conducting a Value-Added Program on **ENHANCING SOFT SKILLS AND PERSONALITY** scheduled from **November 06, 2023 to November 11, 2023** at Narayana Pharmacy College.

Interested candidates are requested to submit their names to the coordinator, Mrs. Salma Shaik, Associate Professor, Department of Pharmaceutical Chemistry, by **November 03, 2023**. All students are hereby informed to attend the classes without fail.

Thank you.

Venue : Seminar hall, Narayana Pharmacy College

Value Added Course on

Enhancing Soft Skills and Personality Development

Dates:

6-11-2023 to 11-11-23

Resource Person:

Dr. U. SUBRAMANYUM Professor

R. VIJAYA Assistant Professor

Course Objectives:

1. Understand Key Soft Skills:

Define and differentiate between various soft skills essential for personal and professional growth, such as communication, teamwork, leadership, and emotional intelligence.

2. Develop Effective Communication Skills:

Enhance verbal and non-verbal communication skills to convey messages clearly and confidently in different contexts.

Course Outcomes:

By the end of this course, participants will:

- Demonstrate proficiency in essential soft skills such as communication, teamwork, and leadership.
- Apply effective communication techniques to enhance interpersonal relationships and collaboration.

PRINCIPAL
NARAYANA PHARMACY COLLEGE
NELLORE - 524 002.

These objectives and outcomes are designed to equip participants with practical skills and knowledge that are essential for personal and professional success, fostering a positive and productive work environment. The course should incorporate interactive activities, role-playing exercises, and reflective discussions to reinforce learning and application of soft skills and personality development concepts.

REPORT ON “ENHANCING SOFT SKILL AND PERSONALITY”

- Title of the course** : Enhancing Soft skill and personality
- Expert** : Dr. U. SUBRAMANYUM Associate Professor & R.VIJAYA MAM
Assistant professor
- Dates** : **6-11-2023 TO 11-11-23**
- Venue** : Narayana Pharmacy College Seminar Hall

Total Number of Students-86

A value added program on “**Enhancing Soft skill and personality**” was organized from 6-11-2023 TO 11-11-23 by inviting **Dr. U. SUBRAMANYUM** as a Resource Person in Narayana Pharmacy College, Nellore. Student’s from **BPHARM-IV-I SEM** had actively participated in the program and has gained a thorough knowledge on enhancing soft skills contributes significantly to overall personality development. It improves self-confidence, assertiveness, and the ability to manage stress effectively. Individuals with strong soft skills are perceived as more approachable, reliable and capable of handling complex situations. Personal growth through continuous skill development enhances career prospects, interpersonal relationships, and overall well-being.

R. VIJAYA started the session with the introduction of Enhancing Soft skill and personality and its significance along with its fundamental concepts. The afternoon session investing in the enhancement of soft skills is essential for individuals seeking personal and professional growth. By developing effective communication, teamwork, adaptability, problem-solving, leadership, and emotional intelligence, individuals can enhance their overall personality and thrive in diverse

environments. Continuous learning and practice of these skills are key to staying competitive and making meaningful contributions in today's dynamic world.

- Encourage participation in workshops, seminars, or online courses focused on soft skills.
- Incorporate soft skill development into educational curricula and workplace training programs.
- Provide mentorship opportunities and constructive feedback to foster skill improvement.
- Promote a culture that values and rewards the application of soft skills in daily interactions.
- Enhancing soft skills and personality development is a journey that requires commitment and effort but yields invaluable rewards in personal satisfaction, professional success, and positive societal impact.

The sessions were successfully concluded with a valedictory ceremony followed by certificate distribution to all the participants.

SPECTROSCOPIC TECHNIQUE IN DRUG QUALITY CONTROL & QUALITY ASSURANCE

6-11-2023 TO 11-11-23

Resource person:

V. PAVAN KUMAR Associate Professor

A. SAI SARANYA Assistant Professor

Course Objectives:

1. Understand the Principles of Spectroscopic Techniques:
Explain the fundamental principles behind various spectroscopic methods used in pharmaceutical analysis, including UV-Vis, IR, NMR, and Raman spectroscopy.
Discuss the strengths and limitations of each spectroscopic technique in drug quality control and assurance.
2. Apply Spectroscopic Techniques in Pharmaceutical Analysis:
Demonstrate proficiency in operating spectroscopic instruments and interpreting spectral data.
Apply spectroscopic methods to identify and quantify active pharmaceutical ingredients (APIs) and impurities.

Course Outcomes:

- By the end of this course, participants will:
- Gain a comprehensive understanding of the principles and applications of UV-Vis, IR, NMR, and Raman spectroscopy in pharmaceutical analysis.
 - Develop practical skills in using spectroscopic techniques to analyze drugs, ensuring quality and compliance with regulatory standards.
 - Demonstrate proficiency in interpreting spectroscopic data and applying it to solve analytical challenges.

EVENT OVERVIEW:

Resource person Mr. **V. PAVAN KUMAR** explained the students about Spectroscopic techniques are indispensable tools in drug quality control and assurance, offering rapid, non-destructive, and highly specific methods for analyzing pharmaceutical compounds. By leveraging these techniques, pharmaceutical companies can ensure the safety, efficacy, and compliance of their products with regulatory standards.

Resource person also given the details

Investment in Advanced Spectroscopic Technologies: Continued investment in advanced spectroscopic technologies can enhance analytical capabilities and improve detection limits.

Training and Expertise: Continuous training of personnel in spectroscopic methods is essential to maximize the effectiveness and accuracy of analyses.

Integration with Other Analytical Techniques: Combining spectroscopic techniques with chromatographic methods can provide comprehensive analytical insights into drug quality.

This report highlights the critical role of spectroscopic techniques in maintaining high standards of drug quality control and assurance, emphasizing their significance in the pharmaceutical industry's regulatory landscape.

Value Added Course on

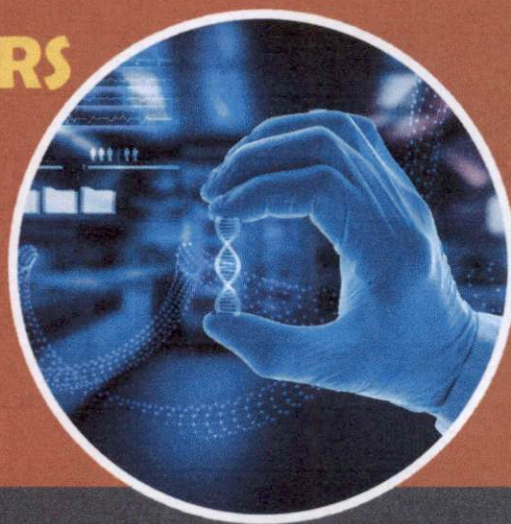

DRUG REGULATORY AFFAIRS

From :19-12-2023 to 24-12-2023

Resource Persons:

Dr. P. VENUGOPALAIAH Associate Professor

Dr. S. SUJATA Professor

Course Objectives:

1. Understand Drug Regulatory Framework:

Provide an overview of global drug regulatory agencies (e.g., FDA, EMA, PMDA) and their roles in drug approval and oversight.

Explain the regulatory requirements and processes involved in drug development, approval, and post-marketing surveillance.

2. Comprehend Regulatory Submissions:

Describe the types of regulatory submissions (IND, NDA, ANDA, MAA) and their respective requirements.

Outline the documentation and data needed for successful regulatory submissions.

Course Outcomes:

- Demonstrate knowledge of global drug regulatory agencies, their roles, and responsibilities in drug approval processes.
- Understand the regulatory requirements and processes involved in drug development, submission, and approval.
- Prepare and manage regulatory submissions effectively, ensuring compliance with documentation and data requirements.

REPORT ON DRUG REGULATORY AFFAIRS

Title of the course : DRUG REGULATORY AFFAIRS
Expert : Dr. P. VENUGOPALAIH Associate Professor & Dr. S. SUJATHA
Professor.
Dates : 19-12-2023 TO 24-12-2023
Venue : Narayana Pharmacy College Seminar Hall

Total Number of Students- 51 BPHARM-IV-II (A SECTION) SEM

EVENT OVERVIEW:

The Resource persons Dr. S. Sujatha & Dr. P. VENUGOPALAIH Described Importance of Drug Regulatory Affairs Drug regulatory affairs encompass the processes and activities undertaken to ensure that pharmaceutical products meet stringent regulatory standards set by national and international authorities. The primary objectives include:

- Safety: Ensuring that drugs are safe for use by patients through rigorous preclinical and clinical testing.
- Efficacy: Demonstrating the therapeutic effectiveness of drugs through clinical trials.
- Quality: Ensuring consistency in manufacturing processes to produce high-quality drugs that meet specifications.

Regulatory Bodies

1. Food and Drug Administration (FDA) (USA)
2. European Medicines Agency (EMA) (EU)
3. Pharmaceuticals and Medical Devices Agency (PMDA) (Japan)

4. World Health Organization (WHO)

Current Trends in Drug Regulatory Affairs

1. Accelerated Approvals
2. Regulatory Harmonization
3. Real-World Evidence (RWE)
4. Digital Health
5. Post-Marketing Surveillance
6. Challenges in Drug Regulatory Affairs

Drug regulatory affairs are critical to safeguarding public health by ensuring that pharmaceutical products are safe, effective, and of high quality. As the pharmaceutical industry continues to innovate, regulatory agencies must adapt to new challenges and technologies to maintain rigorous standards. Collaboration between industry, regulators, and healthcare professionals is essential for advancing regulatory science and improving patient outcomes globally.

The sessions were concluded by Summarize the main findings and their implications, Restate the significance of the study in the broader context, Avoid introducing new information in the conclusion.

COMMUNICATION SKILLS

From

2-1-2024 to 7-1-2024

Resource Person:

Mr. M.PARAM SHIVAM Assistant Professor

Ms. CL. SINDHURA Assistant Professor

Last Date for Registration:

30-12-2024

Course Overview:

This course is designed to enhance participants' communication abilities in professional and personal contexts. Through a blend of theory and practical exercises, participants will develop essential communication skills necessary for effective interpersonal interactions, teamwork, leadership, and professional presentations. Emphasis will be placed on verbal and non-verbal communication, active listening, conflict resolution, and adapting communication styles to diverse audiences.

Teaching Methodology:

Lectures and Discussions: Interactive sessions to introduce communication theories, principles, and best practices. Practical Exercises: Role-playing, case studies, and simulations to apply communication skills in realistic scenarios. Feedback and Reflection: Opportunities for peer and instructor feedback to enhance learning and skill development. Real-world Applications: Integration of real-world examples and workplace scenarios to reinforce concepts and skills.

EVENT OVERVIEW:

Impact and Outcomes

- **Skill Development:** Participants reported enhanced confidence in their communication abilities, particularly in delivering presentations, handling difficult conversations, and writing effectively.
- **Team Collaboration:** Improved teamwork and collaboration were noted as participants applied newfound communication strategies to their professional interactions.
- **Personal Growth:** Many attendees expressed personal growth, such as increased self-awareness and empathy, leading to stronger relationships both at work and in personal life.

CONCLUSION

The Communication Skills event successfully equipped participants with practical tools and insights to enhance their communication effectiveness across various contexts. By focusing on both verbal and non-verbal communication, listening skills, and interpersonal dynamics, the event fostered a comprehensive approach to improving communication competencies.

RECOMMENDATIONS

- **Continued Practice:** Encourage ongoing practice and application of learned communication skills in daily interactions.
- **Follow-up Sessions:** Organize follow-up workshops or coaching sessions to reinforce key concepts and address specific challenges.
- **Integration into Training Programs:** Incorporate communication skills training into broader professional development programs to ensure continuous improvement.

V. PRATHYUSHA Assistant Professor

This course aims to equip participants with the knowledge, skills, and ethical awareness necessary to navigate complex ethical challenges and contribute positively to their organizations and society at large.

Teaching Methodology:

- Lectures and Readings: Provide foundational knowledge through lectures, readings, and multimedia resources.
- Small Group Activities: Facilitate small group discussions and activities to encourage collaboration and problem-solving.
- Ethical Case Analysis: Analyze and debate ethical case studies to deepen understanding and application of ethical principles.
- Reflection and Application: Encourage reflection on personal values and ethical dilemmas encountered in professional practice.
- Assessment: Assess learning through assignments, presentations, and ethical decision-making exercises.

REPORT ON ETHICS AND VALUES

Title of the course : Ethics and Values

Expert : NRK MOORTHY, Associate Professor & V. PRATHYUSHA,
Assistant Professor

Dates : 5-2-2024 TO 10-2-2024

Venue : Narayana Pharmacy College Seminar Hall

Total Number of Students - BPHARM-I-II SEM, III-I PHARM D-V (233)

A value added program on “ETHICS AND VALUES” was organized from 5-2-2024 TO 10-2-2024 by inviting **Mr. NRK MOORTHY** as a Resource Person in Narayana Pharmacy College, Nellore. students from **BPHARM-I-II SEM , III-I PHARM D-V** had actively participated in the program and have gained a thorough knowledge on In recent decades, there has been a growing interest in alternative and complementary medicine

Theoretical Foundations of Ethics

- Overview of different ethical theories. Discuss how these theories apply to decision-making in different scenarios.

Ethical Issues in [Your Chosen Area]

- Identify and describe specific ethical issues relevant to your chosen context.
- Analyze the ethical dilemmas involved and the potential consequences.

EVENT OVERVIEW:

Resource Person: Dr. P. YANADAIAH & V.SUJITHA explained the students about

1: Training Program Overview

- Description of the pharmacy training program offered
- Objectives of the training program (e.g., preparing pharmacists for customer service, medication dispensing, etc.).
- Duration and structure of the training program.

2: Curriculum and Topics Covered

- Detailed breakdown of the curriculum, including specific topics covered (e.g., pharmaceutical calculations, drug interactions, patient counseling).
- Emphasis on compliance with regulatory standards and best practices.

3: Training Methods and Resources

- Explanation of the methods used in training (e.g., hands-on practice, simulations, online modules).
- Mention of any specialized resources or tools utilized during training (e.g., software for prescription management, patient education materials).

4: Practical Experience and Skill Development

- Overview of practical experiences gained during training (e.g., shadowing experienced pharmacists, interacting with customers, handling prescriptions).
- Discussion on how these experiences contribute to skill development and readiness for real-world scenarios.

NARAYANA
PHARMACY COLLEGE
Chinthareddypalem, Nellore

Value Added Course on **CLINICAL RESEARCH AND CLINICAL TRIALS**

From :

1-4-2024 to 6-4-2024

Scope:

- 1. Introduction to Clinical Research:**
Overview of clinical research phases and their significance in drug development.
Introduction to ethical considerations, regulatory requirements, and good clinical practice (GCP) guidelines.
- 2. Clinical Trial Design and Methodology:**
Types of clinical trials (Phase I-IV), their objectives, and study designs.
Planning and protocol development, including eligibility criteria, endpoints, and statistical considerations.
- 3. Regulatory and Ethical Considerations:**
Understanding regulatory bodies (e.g., FDA, EMA) and their role in clinical trial approval and oversight.
Ethical principles in clinical research, including informed consent, patient safety, and data integrity.

Outcomes:

- Understand the Phases and Processes of Clinical Research: Describe the phases of clinical trials and the key steps involved in designing, conducting, and monitoring clinical studies.
- Apply Ethical and Regulatory Guidelines: Demonstrate knowledge of ethical principles and regulatory requirements governing clinical research, ensuring compliance with GCP guidelines and ethical standards.
- Design and Execute Clinical Trials: Develop protocols, manage study operations, and implement data management practices to conduct successful clinical trials.

PRINCIPAL
NARAYANA PHARMACY COLLEGE
NELLORE - 524 002.

Resource Person:

Dr. M. SREENIVASULU Professor
Dr. A. AVINASH Associate Professor

Last Date for Registration: : 23-03-2024

Teaching Methodology:

- Lectures and Presentations: Deliver comprehensive lectures and presentations on each aspect of clinical research and clinical trials.
- Case Studies and Group Discussions: Analyze real-world case studies, engage in group discussions, and participate in problem-solving exercises related to clinical trial scenarios.
- Practical Training and Simulations: Provide hands-on training through simulations, role-playing, and practical exercises to reinforce learning and application of clinical research principles.

REPORT ON CLINICAL RESEARCH AND CLINICAL TRIALS

Title of the Course : CLINICAL RESEARCH AND CLINICAL TRIALS

Expert : Dr. M. SREENIVASULU REDDY, Professor & A. AVINASH
Associate Professor

Dates : 1-4-2024 TO 6-4-2024

Venue : Narayana Pharmacy College Seminar Hall

Total Number of Students : 86

A value-added program on **Clinical Research and Clinical Trials** was conducted from **April 1, 2024 to April 6, 2024** at Narayana Pharmacy College, Nellore. The program featured **Mr. Sreenivasulu Reddy** as the Resource Person. A total of 86 students from B Pharm-IV-II Semester actively participated and gained comprehensive knowledge on various aspects related to clinical research and trials.

PROGRAM HIGHLIGHTS:

1: Overview of Clinical Research

- Definition of clinical research and clinical trials. Importance of clinical research in advancing medical knowledge and improving patient care. Explanation of different types of clinical research, including observational studies and interventional trials. Role of clinical research in understanding diseases, treatments, and healthcare outcomes.

2: Phases of Clinical Trials

- Description of the phases of clinical trials (Phase I to Phase IV). Objectives and key characteristics of each phase. Importance of each phase in the drug development process.

Session Details by Avinash:

- Introduction emphasizing the importance of ethical guidelines and regulations in clinical trials (e.g., informed consent, participant safety). Addressing ethical challenges in clinical research and methods of resolution.
- Elements of a well-designed clinical trial, including randomization, blinding, and control groups. Overview of different study designs such as parallel, crossover, and factorial. Statistical considerations and the process of determining sample size. This program provided students with valuable insights into the critical aspects of clinical research and trials, preparing them for future roles in pharmaceutical and healthcare industries.

Value Added Course on **PHARMACY INFORMATICS**

Scope:

1. Introduction to Pharmacy Informatics:

Overview of pharmacy informatics and its role in healthcare delivery.

Historical development, current trends, and future directions in pharmacy informatics.

2. Health Information Technology (HIT) in Pharmacy:

Introduction to health information systems (HIS), electronic health records (EHRs), and pharmacy management systems (PMS).

Use of technology in medication dispensing, inventory management, and medication reconciliation.

3. Clinical Decision Support Systems (CDSS):

Role of CDSS in pharmacy practice, including drug interaction checking, allergy alerts, and clinical guidelines integration.

Implementation and customization of CDSS to support safe and effective medication use.

4. Medication Safety and Quality Improvement:

Strategies for enhancing medication safety through technology, including barcode medication administration (BCMA) and automated dispensing cabinets (ADCs).

Use of data analytics and quality improvement tools to monitor and optimize medication therapy outcomes.

From :

29-4-2024 to 04-5-2024

Resource Person:

A. ANURAG GOEL Associate Professor

G. UDAYA Assistant Professor

Last Date for Registration :

27-04-2024

PRINCIPAL
NARAYANA PHARMACY COLLEGE
NELLORE - 524 002.

Objectives:

1. Understand the Role and Scope of Pharmacy Informatics:

Define pharmacy informatics and its impact on pharmacy practice, patient care, and healthcare outcomes.

Identify key stakeholders and interdisciplinary collaborations in pharmacy informatics.

2. Apply Health Information Technology in Pharmacy Operations:

Utilize pharmacy management systems and electronic health records to streamline medication dispensing, documentation, and patient information management.

Implement technology solutions to enhance workflow efficiency and medication safety in pharmacy settings.

3. Optimize Medication Use through Clinical Decision Support Systems:

Configure and utilize CDSS tools to support evidence-based medication therapy management and clinical decision-making.

Evaluate the effectiveness of CDSS in improving medication safety and patient outcomes.

4. Enhance Medication Safety and Quality Improvement Initiatives:

Implement technologies such as BCMA and ADCs to reduce medication errors and improve patient safety.

Analyze data and utilize quality improvement methodologies to optimize medication therapy outcomes.

RESEARCH PAPER WRITING

from:

2-1-2024 TO 6-1-2024

Resource Person:

Dr. S. SUJATHA Professor

Dr. M. KRISHNAVENI Associate Professor

PRINCIPAL
NARAYANA PHARMACY COLLEGE
NELLORE - 524 002.

Venue: Seminar Hall

Objectives:

1. Understand the Research Process:

Familiarize participants with the fundamentals of research methodology, including problem identification, literature review, data collection, analysis, and interpretation.

Introduce different types of research (e.g., qualitative, quantitative, mixed-methods) and their respective methodologies.

2. Develop Research Skills:

Equip participants with skills in formulating research questions, hypotheses, and objectives.

Teach effective strategies for conducting literature searches, critically evaluating sources, and synthesizing information.

Highlights:

- Interactive Workshops: Engage participants in interactive sessions focusing on practical aspects of research paper writing, including brainstorming, outlining, and peer feedback.
- Individual Consultations: Offer one-on-one consultations with instructors to discuss specific research projects, address challenges, and receive personalized feedback.
- Case Studies and Examples: Analyze exemplary research papers and case studies to illustrate effective writing techniques, structure, and presentation.

REPORT ON RESEARCH PAPER WRITING

Title of the course : Research Paper Writing
Expert : Dr. S. Sujatha, Professor & Dr. M. Krishnaveni, Associate Professor
Dates : 2-1-2024 TO 6-1-2024
Venue : Narayana Pharmacy College Seminar Hall

Total Number of Students-86

A Value added program on “**Research Paper Writing**” was organized from 2-1-2024 TO 6-1-2024 by inviting **Dr. S. Sujatha & Dr. M. Krishnaveni** as a Resource Person in Narayana Pharmacy College, Nellore. 86 students from B.Pharmacy IV-II SEM had actively participated in the program and have gained a thorough knowledge on background information on Research Paper Writing, Clearly state the research problem or question, Explain the purpose and objectives of the study, Outline the structure of the report.

The experts discussed about Interpret the results in relation to the research questions , Discuss the implications of your findings, Compare your findings with existing literature, Address limitations of the study and suggest areas for future research.

The sessions were concluded by Summarize the main findings and their implications , Restate the significance of the study in the broader context, Avoid introducing new information in the conclusion.

Value Added Course on
Herbal Medicine and Nutraceuticals

From :
29-4-2024 TO 04-5-2024

PRINCIPAL

Resource Person: NARAYANA PHARMACY COLLEGE

Dr. R. RAMASUBRAMANIA RAJA

Associate Professor
NELLORE - 524 002.

Y. RATNA KUMARI Assistant Professor

Introduction:

Herbal medicine and nutraceuticals represent a growing field within healthcare that integrates traditional herbal remedies and dietary supplements with modern scientific research. This course provides an overview of the principles, applications, and controversies surrounding herbal medicine and nutraceuticals in health and wellness.

Objectives:

1. Educational Foundation:

Provide a foundational understanding of herbal medicine and nutraceuticals, including terminology, classifications, and modes of administration.

2. Evidence-Based Knowledge:

Equip participants with evidence-based knowledge on the efficacy, safety, and mechanisms of action of herbal medicines and nutraceuticals.

3. Regulatory Awareness:

Familiarize participants with regulatory agencies, quality standards, and safety considerations related to herbal products and dietary supplements.

4. Clinical Application:

Foster skills in evaluating the suitability of herbal remedies and nutraceuticals for specific health conditions or wellness goals.

5. Interdisciplinary Collaboration:

Promote collaboration and communication among healthcare professionals, herbalists, and researchers to enhance patient care and outcomes.

Teaching Methodology:

- Lectures and Presentations: Deliver lectures on foundational concepts, research updates, and clinical applications of herbal medicine and nutraceuticals.
- Case Studies and Discussions: Analyze case studies to apply theoretical knowledge to practical scenarios and facilitate group discussions on controversial topics.
- Hands-on Activities: Engage participants in activities such as herbal preparation demonstrations, product analysis, and formulation exercises.

This course aims to provide participants with a comprehensive understanding of herbal medicine and nutraceuticals, combining traditional knowledge with contemporary scientific research and regulatory perspectives. Participants will gain insights into the therapeutic applications, safety considerations, and integration of these natural therapies into modern healthcare practices.
