Students attending awareness program conducted by NSS

### **Online assignments :**

Online assignments also give students opportunities to practice mastering the study material at their own place. Teachers are not physically present while the students tackle their assignments, but their help could be sought online or afterwards, whenever students feel the need for it.

## COMMUNICABLE

### DISEASES

#### Introduction:-

- ⇒ Disease is an illness, defined as a state of disorder in which the normal functioning of the body is disturbed.
- ⇒ Diseases, which are transmitted directly or indirectly from one person to another are called communicable diseases.
- ⇒ Communicable diseases are also known as contagious or transmissible diseases.
- ⇒ These diseases mainly result from infection of pathogens including some viruses, bacteria, fungi, protozoans etc.
- ⇒ Practicing hygiene and improving the living standard of the general public can prevent these diseases.
- ⇒ A pharmacist should educate people about the general aspects of communicable diseases, their causes, modes of spread of these diseases, their prevention and control.

TUBERCULOSIS (TB)
