**TITLE : PROMOTING ETHICAL STANDARDS IN
PHARMACEUTICAL EDUCATION AND RESEARCH**
RESOURCE PERSON : DR.J RAMESH BABU
DATE : 27-08-2020

REPORT:

Narayana pharmacy college hosted a seminar on "Promoting Ethical Standards in Pharmaceutical Education and Research" on August 26, 2020. The event aimed to educate 3rd-year B.Pharm students about the significance of maintaining ethical standards in their academic and professional pursuits. The seminar featured Dr. J. Ramesh Babu, a prominent figure in pharmaceutical ethics, as the guest speaker.

The seminar commenced with a welcome address by the Principal of Narayana pharmacy College, who underscored the critical role of ethics in the pharmaceutical industry. Following the introduction, Dr. J. Ramesh Babu took the stage and delivered an insightful lecture covering various aspects of ethical conduct in pharmaceutical education and research. His presentation highlighted key areas such as ethical dilemmas in clinical trials, the importance of informed consent, maintaining patient confidentiality, and ensuring data integrity.

Dr. Babu's session was enriched with real-world case studies that illustrated the repercussions of ethical breaches. These examples provided students with a clear understanding of the practical implications of unethical behavior in their field. The session was highly interactive, with students actively participating in the Q&A segment, seeking clarifications, and sharing their perspectives on ethical issues.

To gauge the effectiveness of the seminar, feedback forms were distributed to the attendees. The forms included questions rating the content relevance, presentation skills of the speaker, interaction and engagement, and overall experience. Students were also encouraged to provide suggestions for future seminars and any additional comments they had.

The feedback received was overwhelmingly positive, with students appreciating the depth of knowledge shared by Dr. Babu and the practical insights gained from the

seminar. The constructive suggestions offered by students will be instrumental in planning future seminars and ensuring continuous improvement in the quality of educational programs.

In conclusion, the seminar on "Promoting Ethical Standards in Pharmaceutical Education and Research" was a resounding success. It effectively raised awareness about the importance of ethics among future pharmaceutical professionals and equipped them with the knowledge to uphold ethical standards in their careers.

REPORT

Report on Effective Communication Skills for Pharmacists

On 10-02-2021, Narayana Pharmacy College hosted an insightful session on "Effective Communication Skills for Pharmacists," led by K. Revathi. The workshop aimed to enhance the communicative competence of pharmacists, an essential skill for providing high-quality patient care and ensuring accurate medication management.

The session commenced with an overview of the importance of communication in pharmacy practice. K. Revathi emphasized that pharmacists are not just dispensers of medication but also pivotal in patient education and counselling. Effective communication helps in bridging the gap between patients and healthcare systems, ensuring that patients understand their treatment plans and adhere to prescribed regimens.

Revathi highlighted several key areas where communication skills are crucial:

1. Patient Interaction: Pharmacists often interact with patients who may have varying levels of health literacy. The ability to convey complex medical information in a clear and understandable manner is critical. Revathi suggested techniques such as using plain language, avoiding medical jargon, and employing the teach-back method, where patients repeat the information back to ensure understanding.

2. Active Listening: Effective communication is not just about speaking clearly but also about listening attentively. Revathi discussed strategies for active listening, such as maintaining eye contact, nodding to show understanding, and reflecting back what the patient has said to confirm comprehension. Active listening helps in identifying patient concerns and tailoring the counselling to their specific needs.

3. Non-verbal Communication: The session also covered the importance of non-verbal cues, including body language, facial expressions, and tone of voice. Revathi noted that non-verbal communication can significantly impact how messages are received and understood. Positive non-verbal signals can help build trust and rapport with patients.

Phone & Fax No :0861-2317966; Cell No :+91-9100051603
Email: principal.npc@narayanagroup.com Visit us:www.narayanapharmacycollege.com

4. Handling Difficult Conversations: Pharmacists may occasionally face challenging situations, such as discussing side effects or addressing medication errors. Revathi provided strategies for managing these conversations with empathy and professionalism. She recommended remaining calm, being transparent, and focusing on solutions to mitigate patient concerns.

5. Interprofessional Communication: Effective communication with other healthcare professionals is also vital. Revathi stressed the importance of clear and concise communication when collaborating with doctors, nurses, and other members of the healthcare team. Proper documentation and the use of standardized communication protocols can enhance teamwork and patient care.

The workshop concluded with interactive exercises and role-playing scenarios, allowing participants to practice and refine their communication skills. Feedback from these activities helped attendees recognize areas for improvement and build confidence in their abilities.

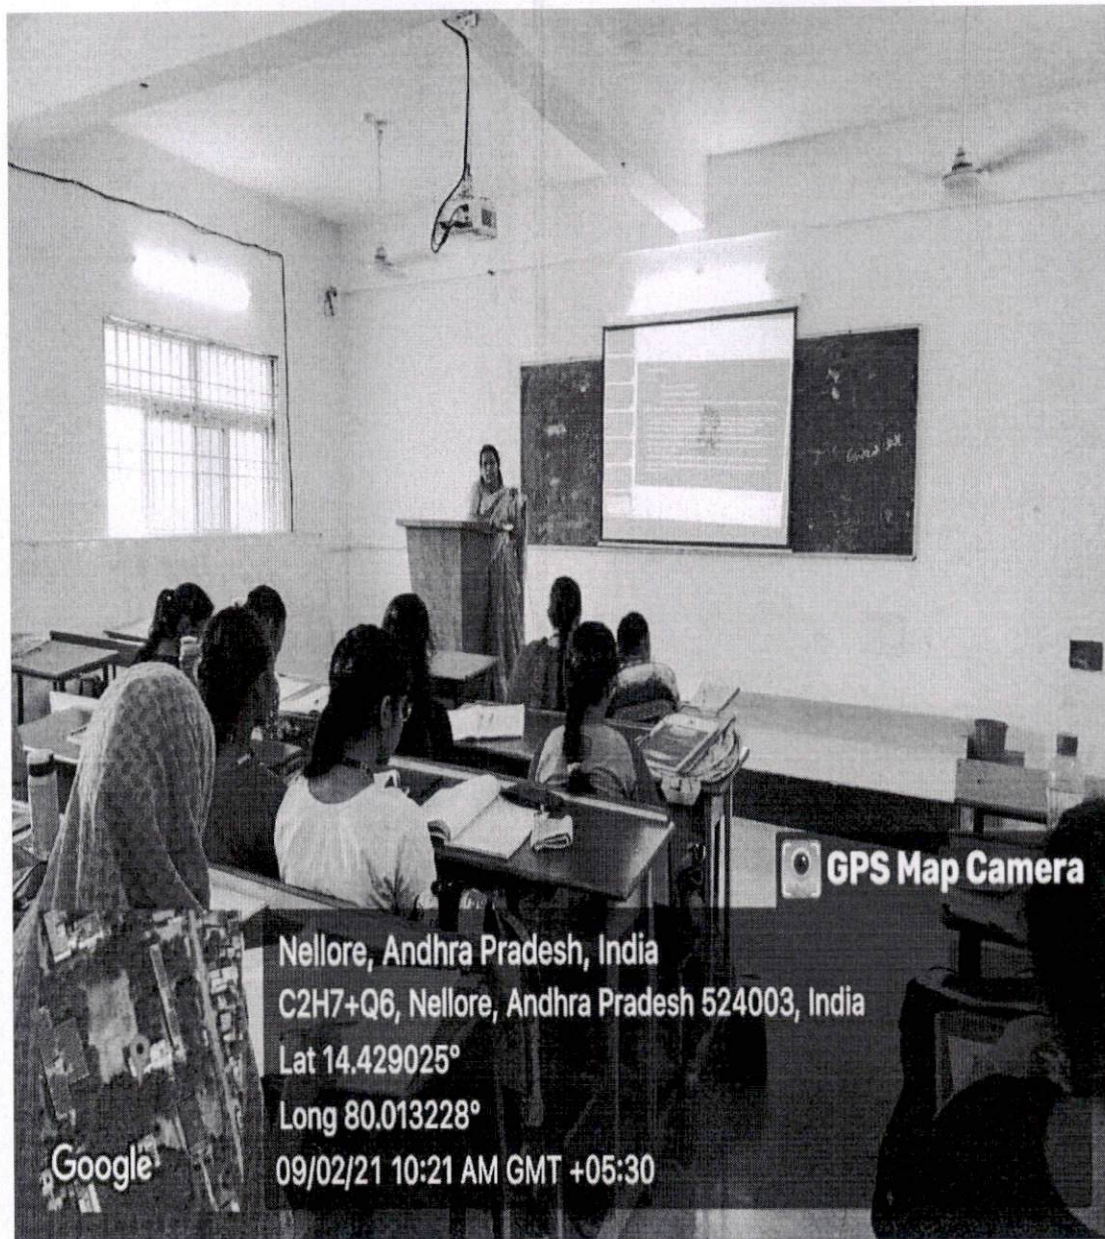

Overall, the session was highly beneficial, equipping pharmacists with practical tools and techniques to enhance their communication skills. As highlighted by K. Revathi, improving these skills not only enhances patient satisfaction but also contributes to better health outcomes and a more effective healthcare delivery system.

RESOURCE PERSON : K. MAHESH KUMAR

DATE : 27-2-2021

TARGET GROUP : 3rd BPHARM (SEC- B)

Programme Report: Effective Marketing Strategies for Pharmaceutical Products

Resource Person: K. Mahesh Kumar from Triveni Pharmaceuticals

Date: 27-02-2021

On February 27, 2021, a comprehensive seminar titled "Examine Effective Marketing Strategies for Pharmaceutical Products While Adhering to Regulatory Guidelines" was conducted by Mr. K. Mahesh Kumar from Triveni Pharmaceuticals. The session aimed to provide valuable insights into the dynamic landscape of pharmaceutical marketing, emphasizing the necessity of compliance with stringent regulatory frameworks.

The seminar commenced with an in-depth overview of the major regulatory bodies, such as the FDA and EMA, highlighting the critical regulations that govern pharmaceutical marketing practices. Mr. Kumar elucidated on compliance strategies, ensuring that participants understood how to navigate the complex regulatory environment effectively.

Following this, the discussion shifted to effective marketing strategies. Mr. Kumar detailed the role of digital marketing, including the use of social media, email campaigns, and digital advertising, which have become pivotal in reaching a broader audience. The seminar also covered Direct-to-Consumer (DTC) advertising, emphasizing both its benefits and associated

risks. Mr. Kumar shared best practices for creating compliant DTC advertisements, which are crucial for maintaining transparency and consumer trust.

Another focal point was physician engagement, where Mr. Kumar discussed strategies for effective communication with healthcare professionals. The role of Medical Science Liaisons (MSLs) was highlighted as essential for bridging the gap between pharmaceutical companies and medical practitioners.

The importance of market research and consumer insights was underscored, demonstrating how understanding patient needs and preferences can significantly enhance marketing efforts. Methods for gathering and analyzing market data were shared, along with examples of utilizing these insights to tailor marketing campaigns effectively.

Ethical considerations were a prominent theme throughout the seminar. Mr. Kumar stressed the importance of balancing commercial goals with patient safety and well-being, advocating for transparency in marketing communications and the careful management of conflicts of interest.

The seminar concluded with a look at future trends in pharmaceutical marketing, including emerging technologies and personalized medicine. Participants engaged in interactive discussions and workshops, developing compliant marketing strategies based on real-world scenarios.

Overall, the seminar was a resounding success, providing participants with a robust understanding of effective pharmaceutical marketing strategies while emphasizing the importance of regulatory adherence. The interactive Q&A session allowed attendees to address specific concerns, making the seminar both informative and practical.

Report on Seminar: The Impact of Industrial Visits on Student Development

Resource person: T. Sridharan from vijaya dairy form

A seminar on "The Impact of Industrial Visits on Student Development" was organized on 27th February 2021 for the 5th Pharm D students. The session was led by T. Sridharan, an experienced professional with extensive knowledge in the pharmaceutical industry.

The seminar began with an introduction to the importance of industrial visits in the educational journey of pharmacy students. T. Sridharan emphasized how these visits provide a unique opportunity to observe the application of theoretical knowledge in real-world scenarios. He discussed how such experiences help students understand the functioning of pharmaceutical companies, from drug manufacturing to quality control and distribution.

One of the key points highlighted by the speaker was the role of industrial visits in bridging the gap between classroom learning and industry practices. He explained that while academic knowledge forms the foundation, seeing these processes in action helps students grasp complex concepts more effectively. Additionally, T. Sridharan stressed the importance of understanding current industry trends, regulatory requirements, and technological advancements, all of which are crucial for future pharmacists.

The seminar also touched upon the benefits of networking during industrial visits. T. Sridharan encouraged students to use these opportunities to interact with industry professionals, ask questions, and seek guidance. Such interactions can lead to potential internships, job offers, and collaborations, thereby enhancing career prospects.

In the concluding segment, T. Sridharan discussed the significance of these visits in fostering a professional mindset among students. He urged them to approach these experiences with curiosity and a willingness to learn, as they are vital in shaping their future careers.

REPORT

30-1-2020

**TITLE :IMPROVING ETHICAL CONSIDERATIONS IN
PHARMACEUTICAL RESEARCH**

RESOURCE PERSON : M.BALAJI from YONTUS

Date : 29-1-2020

TARGET GROUP : 4th BPHARM

On 29th January 2020, M. Balaji from Yontus delivered a comprehensive session on the ethical considerations pivotal in pharmaceutical research. The talk highlighted the importance of ethics in ensuring the integrity, safety, and efficacy of new drugs, thereby safeguarding public health and maintaining trust in the pharmaceutical industry.

M. Balaji emphasized that ethical pharmaceutical research is foundational to developing treatments that are both effective and safe. He discussed the necessity of adhering to established guidelines such as the Declaration of Helsinki and the Good Clinical Practice (GCP) guidelines, which mandate the protection of research participants and the integrity of the research process. These guidelines ensure that all studies are conducted with the highest standards of ethical conduct and scientific rigor.

The session also covered the ethical dilemmas often faced in pharmaceutical research, such as the balance between clinical trial risks and benefits, informed consent, and the treatment of vulnerable populations. M. Balaji stressed the importance of transparency and accountability in reporting research findings, advocating for the publication of both positive and negative results to avoid publication bias and ensure that scientific knowledge is comprehensive and reliable.

Furthermore, M. Balaji explored the role of Institutional Review Boards (IRBs) and ethics committees in overseeing research protocols to protect participants' rights and welfare. He

discussed case studies where ethical lapses led to significant repercussions, underscoring the critical need for continuous ethical education and oversight.

The session concluded with a Q&A, where participants engaged in discussions about emerging ethical challenges in the field, such as the use of artificial intelligence in drug development and the ethical implications of personalized medicine.

Overall, M. Balaji's insights underscored the vital role of ethics in pharmaceutical research, reinforcing the commitment to conducting research that is not only scientifically sound but also ethically responsible.

REPORT ON INDUSTRIAL VISIT DOCTORS LIFE SCIENCE PVT.LTD. KOVUR.

Aim of the industrial visit

Main aim industrial visit is to provide an exposure to students about practical working environment

Objective:

- Industrial visit is considered as one of the practical Methods of teaching. The main purpose is to know things practically through interaction, working methods and employment practices moreover, it gives exposure from academic point of view.
- They also provide students a good opportunity to gain full Awareness about industrial practices through industrial visit students get Awareness about new technologies.
- Technology development is a main factor, about which a students should have a good knowledge.

CIRCULAR

This is to inform all the 5th year Pharm.D students that a seminar by DR.R.ROHITH from Bell pharmaceuticals on "PHARMACOVIGILANCE AND DRUG SAFETY" has been scheduled for 23-1-2020 at 11.00 am onwards in the seminar hall. Hence, 5th year Pharm.D students are hereby informed that they must attend the seminar and make the programme successful.

REPORT

TITLE : PHARMACOVIGILANCE AND DRUG SAFETY
RESOURCE PERSON : DR.R.ROHITH
Date : 23-01-2020
TARGET GROUP : 5th Pharm D

REPORT :

Date: 23-1-2020

Speaker: Dr. R.Rohith from Bell pharmaceuticals

The seminar on "Pharmacovigilance and Drug Safety," delivered by Dr. Rohith, offered a comprehensive examination of the critical aspects of drug safety monitoring and management. The session was well-received and provided valuable insights into current practices, regulatory frameworks, technological advancements, and future directions in the field of pharmacovigilance.

1. Core Concepts of Pharmacovigilance

Dr.R.Rohith began the seminar by outlining the fundamental principles of pharmacovigilance. He emphasized the primary objective of pharmacovigilance, which is to detect, assess, and prevent adverse drug reactions (ADRs). The discussion highlighted the importance of systematic monitoring and reporting mechanisms to ensure patient safety and efficacy of pharmaceutical products. Dr.R.Rohith detailed the processes involved in collecting and analyzing ADR data, stressing the need for vigilance throughout the drug lifecycle—from pre-marketing clinical trials to post-marketing surveillance.

2. Regulatory Frameworks and Guidelines

Email: principal.npc@narayanagroup.com Visit us:www.narayanapharmacycollege.com

The seminar provided an in-depth review of the regulatory frameworks governing pharmacovigilance. Dr. Rohith discussed the guidelines set by major regulatory bodies such as the International Conference on Harmonisation (ICH) and the U.S.

Food and Drug Administration (FDA). He explained how these regulations ensure the consistent and effective monitoring of drug safety across different regions. The session covered the responsibilities of pharmaceutical companies and regulatory agencies in maintaining compliance and managing drug safety information.

3. Adverse Drug Reaction (ADR) Reporting

Rohith highlighted the critical role of ADR reporting in pharmacovigilance. He outlined various reporting mechanisms, including spontaneous reporting systems, electronic health records (EHRs), and patient-reported outcomes. The importance of accurate and timely reporting was emphasized as essential for identifying safety signals and making data-driven decisions regarding drug use. Case studies of notable ADRs were presented, demonstrating how pharmacovigilance data can be used to address safety concerns and inform regulatory actions.

4. Innovations and Technological Advancements

The seminar showcased several innovative technologies transforming pharmacovigilance. Dr. Rohith discussed the application of artificial intelligence (AI) and machine learning in analyzing large datasets to identify potential safety signals more efficiently. The integration of pharmacovigilance systems with EHRs was also covered, highlighting how this integration facilitates real-time monitoring and enhances data accuracy. These advancements are poised to significantly improve the efficiency and effectiveness of drug safety monitoring.

5. Challenges and Best Practices

Dr. Rohith addressed several challenges associated with pharmacovigilance, including data quality and consistency. He discussed best practices for ensuring the accuracy and

completeness of safety reports. The seminar also covered the need for global harmonization in pharmacovigilance practices, emphasizing the importance of international collaboration to standardize safety monitoring processes and share critical safety information across borders.

6. Future Directions in Drug Safety

Looking ahead, Dr. Rohith outlined future directions in pharmacovigilance. He discussed the development of advanced risk management strategies that incorporate predictive analytics and personalized medicine approaches. These strategies aim to proactively manage drug safety and enhance patient protection. The seminar also highlighted the growing importance of patient-centric approaches in pharmacovigilance, including greater patient involvement in safety monitoring and engagement in safety studies.

Conclusion

Dr. Rohith's seminar on Pharmacovigilance and Drug Safety provided a thorough overview of current practices, regulatory requirements, and technological innovations in the field. By addressing challenges, exploring best practices, and examining future directions, the seminar equipped attendees with valuable knowledge to enhance drug safety and improve patient outcomes. The insights gained will contribute to more effective pharmacovigilance practices and better management of drug safety in the evolving landscape of pharmaceuticals.

REPORT ON ANALYTICAL VISIT OF RV LABS ,GUNTUR.

Aim of the industrial visit

Main aim industrial visit is to provide an exposure to students about practical working environment

Objective:

- Industrial visit is considered as one of the practical Methods of teaching. The main purpose is to know things practically through interaction ,working methods and employment practices.moreovere ,it gives exposure from academic point of view.
- They also provide students a good opportunity to gain full Awareness about industrial practices. Through industrial visit students get Awareness about new technologies.
- Technology development is a main factor ,about which a students should have agood knowledge .
- After visiting an industry students can gain a combined knowledge both theory and practical.
- The Students will be more concerned about future in carrier After having an industrial visit.

ABOUT INDUSTRY

RV Labs was Established in 2001, RV LABS has made a name for itself in the list of top service providers of in India. RV LABS is listed in Trade India's list of verified companies offering wide array of etc

BENEFITS TO STUDENTS

- ✓ The students have close visit to the machinery used in a tablet industry.

PROGRAM REPORT

The Student Drug Dispensary Program at our institution has been implemented to ensure the health and safety of our students. This initiative aligns with the National Assessment and emphasizing the importance of student support services.

The dispensary is staffed by trained medical professionals who manage the distribution of prescribed medications, over-the-counter drugs, and emergency treatments. This facility is essential for students with chronic conditions like asthma, diabetes, and severe allergies, ensuring they have immediate access to necessary medications.

Our drug dispensary maintains stringent protocols for medication storage and administration. Medications are stored in a secure, temperature-controlled environment to prevent unauthorized access and maintain efficacy. A comprehensive record-keeping system is in place, documenting all dispensed medications, dosages, and administration times. This ensures accuracy, helps monitor student health, and provides critical information during emergencies.

The program also includes regular health check-ups, awareness campaigns, and training sessions for staff and students on safe medication practices. These initiatives aim to educate the school community about the importance of proper medication use and health management.

In conclusion, the Student Drug Dispensary Program significantly enhances our institution's support services, contributing to a healthier, safer, and more conducive learning environment. This program reflects our commitment to student welfare and aligns with quality of medication.

To,
The Manager,
Saireka generics,
Nellore.

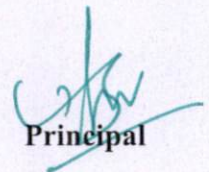

Sir,

Sub:Permission for drug dispensing training to IV B.PHARM Students- Reg.

As per the MoU signed, I am writing to seek your permission for the clinical training of IV **B.PHARM** students. Each visit will be accompanied by a faculty member. Attached is the list of students along with the necessary information for your consideration.

We sincerely appreciate the opportunity to collaborate with you and are committed to making this partnership a success.

Thank you for your attention to this matter.

Program Report

Title: Digital Rights Management and Online Copyright Protection

Speaker: Dr. K. Ramakrishna

Date: 17/11/2020

Venue: seminar hall

Time: 11:00am

Introduction: On 17th November 2020, a seminar titled "Digital Rights Management and Online Copyright Protection" was held for the 3rd Year B.Pharm students at [Insert Institution]. Dr. K. Ramakrishna, a renowned expert in digital rights management and copyright law, delivered a comprehensive presentation on the subject.

Objective: The seminar aimed to provide students with an in-depth understanding of digital rights management (DRM) and the challenges associated with protecting digital content in the online environment.

Summary of the Seminar:

The session began with an introduction by [Insert Host's Name], who emphasized the relevance of digital rights management in today's digital age. Dr. K. Ramakrishna then presented the key aspects of the topic.

Key Topics Covered:

- 1. Introduction to Digital Rights Management (DRM):** Dr. Ramakrishna provided an overview of DRM, explaining its role in protecting digital content from unauthorized access and distribution. He discussed various DRM technologies and their applications.
- 2. Strategies and Technologies for DRM:** The speaker explored different strategies and technologies employed to manage digital rights, including encryption, digital watermarks, and access controls.
- 3. Challenges in Online Copyright Protection:** Dr. Ramakrishna addressed common challenges faced in online copyright protection, such as digital piracy, copyright infringement, and enforcement difficulties.
- 4. Case Studies and Real-World Examples:** The seminar included case studies that highlighted significant copyright issues and the strategies used to address them, providing practical insights into the application of DRM technologies.
