1. Purpose

The purpose of the Green and Environment Policy at Narayana Pharmacy College is to promote sustainable practices that minimize environmental impact, enhance resource efficiency, and foster a culture of environmental responsibility among students, staff, and the community.

2. Scope

This policy applies to all activities within Narayana Pharmacy College, including but not limited to academic, administrative, and operational functions. It encompasses the use of resources, waste management, energy consumption, and the overall environmental footprint of the institution.

3. Policy Making

The policy is formulated by the Environmental Committee, which includes representatives from various departments, student bodies, and administrative staff. The committee conducts regular reviews to ensure the policy remains relevant and effective.

4. Effective Measures

- **Resource Efficiency:** Promote the efficient use of resources, including water and energy, through regular audits and the implementation of conservation measures.
- **Waste Management:** Implement a comprehensive waste management system that includes segregation, recycling, and proper disposal of hazardous and non-hazardous waste.
- **Green Procurement:** Prioritize the procurement of environmentally friendly products and services.
- **Biodiversity:** Maintain and enhance campus green spaces to support local biodiversity.
- **Awareness and Education:** Conduct regular workshops, seminars, and campaigns to educate the college community about environmental issues and sustainable practices.

5. Implementation

The implementation of the Green and Environment Policy involves:

- **Environmental Committee:** Responsible for overseeing the implementation of the policy and coordinating activities across departments.
- **Green Audits:** Conducting regular environmental audits to assess compliance and identify areas for improvement.
- **Training Programs:** Providing training and resources to staff and students to promote sustainable practices.
- **Monitoring and Reporting:** Establishing a system for monitoring environmental performance and reporting progress to the college administration and stakeholders.

6. Problem Solving

Addressing environmental challenges involves:

- **Feedback Mechanism:** Establishing a feedback mechanism for staff and students to report environmental issues or suggest improvements.
- **Action Plans:** Developing action plans to address identified issues, with clear timelines and responsibilities.
- **Collaboration:** Engaging with external organizations, government agencies, and the local community to leverage expertise and resources.

7. Responsibility

The Environmental Committee, led by a designated Environmental Coordinator, is responsible for the overall management and execution of the Green and Environment Policy. All members of the college community are expected to support and participate in the implementation of the policy.

8. Evaluation

Regular evaluations will be conducted to assess the effectiveness of the policy, with adjustments made as necessary to ensure continuous improvement and alignment with best practices in environmental sustainability.
